## Relevant Experience

### Rhenus Warehousing Solutions Dec 2020 – Sep 2025

Team lead Jun 2023 – Sep 2025

Back up Team lead May 2022 – Jun 2023

TroubleShooter Dec 2020 – May 2022

- Worked daily with the **Warehouse Management System (WMS)**, managing data and overseeing smooth warehouse operations
- Provided **continuous feedback** on system improvements and worked closely with the **IT team** to implement changes and enhance usability
- Served as the first “tester“ for a **new Quality Control (QC) program**, identifying bugs, testing functionality, and collaborating closely with IT during the pilot phase
- Authored detailed **work instructions** for employees, explaining the full process of using the QC program and its functionalities
- Communicated in **English on a daily basis**, including meetings, emails, and team coordination, performing all responsibilities expected from a Team Lead role.
